About This Content

This stunning train has been upgraded to give you the best experience. The Nickel Plate has had its Train Motion settings tweaked to mimic realistic behaviour using the new Train Motion system in TANE.

In addition to this, you can now play the brand new driving session created for this train. This means you can find the Nickel Plate train located in the Kickstarter County session menu. That isn't to say you can't go and place it in Surveyor yourself like before, but we thought some of you will want to just get in and drive!

Relive the halcyon years of steam hauled freight services in the US with this stunningly modeled Trainz Simulator addon.

This DLC pack includes the following:

New York, Chicago & St. Louis / 'Nickel Plate Road' Class S-2 2-8-4 locomotive in early and late condition

Pere Marquette Class N-1 2-8-4 locomotive in 'as preserved' condition

NKP 40' Boxcar

NKP 400 Series Bay Window Caboose

Features Include:

Custom 3d Locomotive Interior.

Custom 3d Caboose Interior.

Configurable classification lights and flags.

Automatically assigned prototypical vehicle numbering for Locomotive, Boxcar, and Caboose.

Automatic tail light on rear of tender.

Boxcar loads palletized goods by default, other loads configurable in surveyor.

. this is amazing! great graphics, nice whistle, and nice sounds! i think this is totally worth getting! not only does it come with the NKP S-2 Berkshire, it also comes with a Pere Marquette N-1 Berkshire! I recommend this for both Tane and Trainz 12! (and also if you have Trainz 12 and TANE, you get the DLC pack in both games!), this DLC pack is a good pack for those looking for a hugh speed freight engine in their copy of Trainz 12 or Tane!. I got to say this a great prooduct and bot locomotives, the Boxcar, Caboose, and Station in a price of one is a great deal. Thanks Ocemy, this is one hell of a product.. Amazing detail on this engine. Great texture, nice smoke effects, animated bell, animated suspensions, and great sounds.. Nice, but i wish there was a clean verison of the Pere Marquette N-1 Berkshire Locomotive.
